## Unnecessary False Automatic Fire Alarms

In an effort to curb unnecessary false alarms, the Commissioners of the North Conway Water Precinct have ordered the following penalty fees:

Policy to be put into effect when unnecessary False Alarms are generated by an occupancy:

1 <sup>st</sup> Alarm Occurrence	No Fee
2 <sup>nd</sup> Alarm Occurrence	No Fee / Written Warning
3 <sup>rd</sup> Alarm Occurrence	\$50.00 Fee
4 <sup>th</sup> Alarm Occurrence	\$75.00 Fee
5 <sup>th</sup> Alarm Occurrence	\$150.00 Fee The fire department will send a certified letter to the property owner outlining the false alarm policy along with a bill for the false alarms.
6 <sup>th</sup> Alarm & Above Occurrence	\$300.00 Fee & cost of responding personnel

Policy put into effect when:

When the North Conway Fire Department respond to a fire alarm at a property location with the results being ruled as a system malfunction with the alarm or lack maintenance issue.

Alarms occur within 365 days of 1<sup>st</sup> Alarm

Alarm activations are from the same or similar related cause(s)

Alarm activations are due to inadequate maintenance from the Tenant or Owner of the building

When the Tenant or Property refuses to have the fire alarm system serviced and the fire alarm system keeps sending out false alarms to the fire department and they respond to the property. The alarm occurrence count will not go back to zero after 365 days and will be charged the fee of the 6<sup>th</sup> alarm until the fire alarm system is serviced and tested properly.

(Alarms must be maintained in accordance with NFPA 72 Code requirements.)
